

Collection No. 60

K.H.L. Key

Tomingley - Dubbo -  
Narrow-leaved area

11-14/10/54.

11/10/54 4099. Tomingley. 102. *Sideroxylon*,  
*Euphonia pyrocephala* (2), *Merula* sp. (2),  
*Dea lobata*, *Coccyzica*, *Call. calcarata*, *C. glauca*,  
with dense shrubs (spec.) to 5 ft. & blue  
grass-like on coarse granitic soil.

*Apotrois* sp., *Pyrocephalus* sp.

121. *Euphonia pyrocephala*, *Merula* sp.,  
Mombasa.

*Dea lobata*, *Coccyzica*, *C. glauca*,  
tall

~~122. *Euphonia pyrocephala*, *Merula* sp.,  
*Dea lobata*, *Coccyzica*, *C. glauca*,  
*Call. calcarata*, narrow, phyllode~~  
wattle on higher level, occ. *Sideroxylon*  
on lower. Dense shrub layer of same  
species as 102, but lower + thinner  
in places, at least partly a result  
of burning, where *Kristida* present.

*M. cultrata* ~~mainly~~ mainly confined to the  
lathyraceae. *Austrostris rubralosa*.

*Apotrois* sp., *Pyrocephalus* sp. (2)  
126. *Sideroxylon*, *C. calcarata*,  
some black leaf, occ. ~~*Call. calcarata*~~ *C. striata*,  
with a shrub layer of varying  
density of a *Cassinia* (?) to 4 ft. & occ.  
lower species of low density. Much

little or ferns. Austracris gutt.

Cirphulab. 131. Junction with

Dubbo-Harrington road.

14/10. ~~4248~~ 4248. Harrington. 262. Dealbata,  
Macrostoma sp., Apolopis, Uonis, Cirphula  
C. calcarata & oak, C. glauca ~~Leath.~~ on  
pyrochomenis, Azidota, Gomata, Heteroptemis,  
sandy rise leading down to Sedersyfon.

Patchy growth, sometimes denser,  
of shrub noted at 108, ~~other~~ to 4ft.  
Other shrubs, mainly smaller, less  
frequent, occ. Cassinia sp., scattered  
bushy Acacia to 5ft., considerable <sup>very</sup> h.

Aristida. Austracris gutt. 263. E.

<sup>Genus nov. 5(?) h.)</sup>  
microcarpa, C. glauca, bullock, Myoporum  
sp. to 15ft, buddah, with numerous  
Rochia microphylla & Bassia Boichie  
on gentle stony rise with sparse  
Stipa & Danthonia. 271. Junction with  
Dubbo-Tomungley road. 272. Dubbo.
